

3rd Australian Lipid Meeting

21-22 November 2016

Lipids are one of the fundamental building blocks of life. The ongoing developments in the field of lipidomics has enhanced our view of lipids and lipid metabolism, providing new understanding of their many roles in biology, health and disease.

With this third meeting we aim to bring together lipid researchers from different fields to discuss their work and facilitate cross-disciplinary collaboration.

Program topics:

- integrative lipidomics
- metabolic diseases
- plant lipids
- lipid signalling
- lipid biomarkers
- fluxomics
- developments in lipidomics

Plenary Speakers:

Professor Michelle Mielke
A/Professor Daniel Nomura
Dr Stephen Previs

Venue:

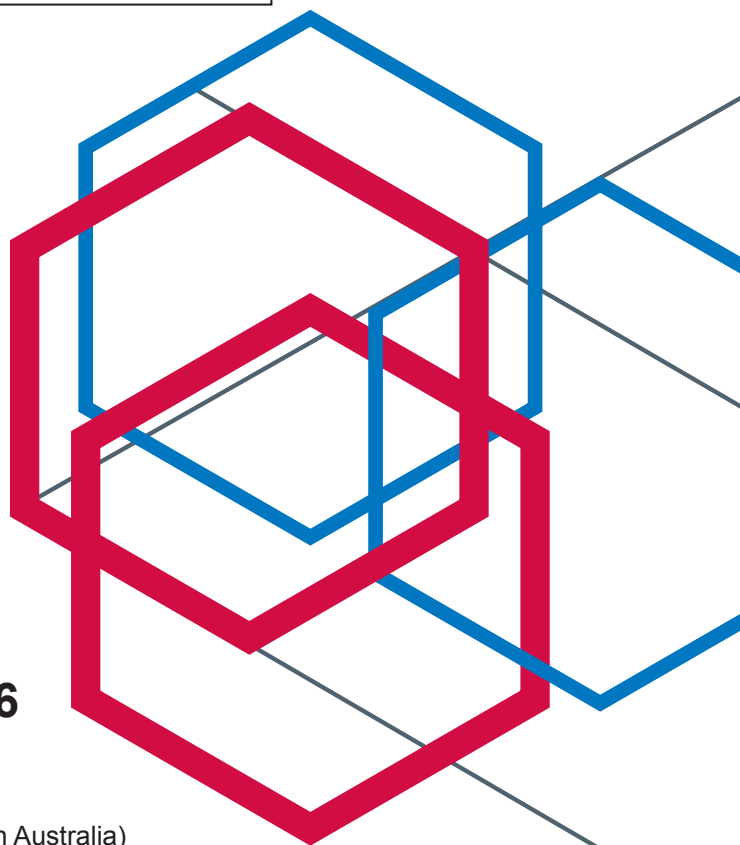

AMREP Lecture Theatre
Baker IDI Heart and Diabetes Institute
75 Commercial Road, Melbourne, Australia

Early bird registrations close Friday 21 October.
Standard registrations close Thursday 17 November.
